

Abortion or Maternal Health: What should the UK be funding in developing countries?

International Day Conference

Regent Hall, 275 Oxford Street, London

Tuesday 20th March 2012, 9.30 am - 5.00 pm

Professor Robert Walley, Matercare International, Canada

Roger Kiska JD, Alliance Defence Fund, Slovak Republic

Dr Obielumani Ideh, Obstetrician & Health Campaigner, Nigeria

Fiorella Nash MA (Cantab), Writer/Researcher, UK

What are the benefits of this conference?

Hear legal and medical experts explain current policies and practice. Meet professionals and campaigners promoting maternal health and opposing abortion. Learn which approaches are effective in reducing maternal and infant deaths. Understand the competing ideologies driving change.

What are the key topics of this conference?

UK policies on abortion, maternal health and MDG5. The role of non-governmental organisations. Improving obstetric services and outcomes in poorer countries. Is abortion safe in impoverished settings? The international legal framework on abortion.

Who is the conference for?

Open to all, of particular interest to
overseas development organisations – staff and volunteers
doctors, midwives and nurses
legal professionals and academics
Pro-life activists, human rights and womens rights advocates.
